

## Vuzix Solutions Pick & Pack Validation Program

### Validate Smart Glasses in Your Warehouse—No IT Required

The **Pick & Pack Validation Program** gives warehouse and logistics leaders a fast, risk-free and completely hands-on way to evaluate smart glasses across 5 of the most common operational workflows, without impacting existing systems or involving IT.

### What You'll Experience

See how hands-free, eyes-up workflows can transform your operation:

- Improve picking accuracy
- Increase packing speed
- Accelerate dock-to-stock
- Reduce mis-sorts and errors
- Boost inventory confidence
- Simplify onboarding and training

### A Fast Track to Deployment

Evaluating new technology in a live warehouse environment is difficult:

IT resources are limited

Integrations are complex

Operational risk is high

This program removes those barriers.

**Don't guess how smart glasses will perform—validate it in your operation.**

# Pre-Configured Smart Glasses. Real Workflows. Zero Integration.

We know every client setup is unique, so each starter kit comes with a pair of Vuzix M400™ or Vuzix LX1™ smart glasses preloaded with Mobilium™, a highly flexible software suite that integrates with most Warehouse Management Systems (WMS) and ERP platforms.

It's a practical way to evaluate smart glasses through a set of the most common, high-return logistics workflows – all with full support of your dedicated Vuzix Logistics Solutions team.

The heart of the Validation Program are the workflows built into glasses. Each workflow is designed to simulate high-impact warehouse scenarios and highlight speed, accuracy, and ease of use in an eyes-up, camera-driven experience.

## WORKFLOWS

- Pick Assist:** Faster picking. Fewer errors.
- Goods Receipt:** Frictionless inbound processing
- Pack Assist:** Ship the right order, the first time
- Pallet Build:** Prevent mis-sorts at speed
- Bin Audit:** Fast, efficient inventory validation

## Powered by Mobilium®

Purpose-built software designed to connect smart glasses to warehouse systems, when you're ready.

- Connect mobile workflows to ERP/WMS**
- Digitize and optimize manual processes**
- Capture real-time operational data**
- Accelerate digital transformation**

**37% Faster Fulfillment**

## How it Works

### 1. Discovery

Consult with a Vuzix logistics specialist to define goals and use cases

### 2. Starter Kit Delivery

Receive pre-configured smart glasses with 5 ready-to-run workflows

### 3. Guided Evaluation

Test workflows in your environment—no integration required

### 4. Review & Next Steps

Assess ROI, integration options, and pilot opportunities

**See it, test it, prove it.**

**Evaluate smart glasses in  
your warehouse—risk free**
